

OMNETICS CONNECTOR CORPORATION

12 Position High Density Over-molded Circular

Micro miniature circular connectors: Mil Spec quality LCP circular connector with a Santoprene over-mold and embedded electronics is well suited for this catheter application. Focus is on size, ease of use and reliability for medical OEM's. They are comprised of Mil Spec stamped BeCu compliant pins mated with seamless screw-machine sockets. Standard Micro miniature circular connectors without over-mold are available "off-the-shelf" in 3 shell sizes, up to 27 positions. All are suitable for custom over-molding based on a customer's specific requirements.
