

Environmental Policy

Omnetics Connector Corporation is committed to managing environmental matters as an integral part of our business. In particular, it is our policy to assure the environmental integrity of our processes and facilities at all times. We will do so by adhering to the following principles:

Compliance

We will comply with all applicable local, state and federal laws and regulations and will implement programs and procedures to assure compliance. Strict compliance with environmental standards will be a key ingredient in the training of all employees.

Where existing laws and regulations are not adequate to assure the protection of the environment, we will establish and meet our own environmental quality standards.

Prevention

We will employ management systems and procedures specifically designed to prevent activities and conditions that pose a threat to the environment. We will minimize risk and protect our employees and the communities in which we operate by following safe operating procedures, as well as being prepared for emergencies.

We will strive to prevent releases of hazardous substances to the atmosphere, land or water. We will minimize the amount of and toxicity of waste generated and will ensure the safe treatment and disposal of waste.

Communication

We will communicate our environmental commitment to our employees, suppliers and customers. We will solicit their input in meeting our environmental goals and in turn will offer assistance in meeting these goals.

Continuous Improvement

We will continuously seek opportunities to improve our adherence to these principles and will periodically report our progress to our stake holders.
